Safety, Strength and Durability Advantages.

- *Structural support integrity throughout – high tensile alloy frame work
- *Swivel TV Bracket pull tested to over 120kg. (The TV safely stays in position whilst travelling)
- *Revolution's High Tensile alloy Cabinet door & Drawer Locks, prevent the contents becoming missiles in an accident
- *Gas Safety Hose - If the gas line ruptures in an accident the flow of gas will automatically be stopped at the gas bottle. No flexible gas lines.
- *Entry Door Grab Handle improves usability and helps prevent falls
- *All Cabinetwork is structurally bonded and screwed to the body, thus reduces noise and provides superior strength and durability in an accident.
