

Revolution's aptly named Desire Series combines the best of all worlds, on road they are remarkably compact and easy to drive, yet in living mode are supremely spacious with unparalleled functionality with luxury standard features all at an amazingly affordable price that cannot be matched by any other Manufacturer. More importantly in "travelling mode" the Desire's entire range maintains full access to the kitchen, lounge, wardrobe, and rear bathroom.

On road the Revolution's Desire Range's modern slim-line aerodynamic contoured body and awning that does not protrude out past the body is narrower than other luxury car-licensed motorhomes. In combination with the standard 3D 360° "Birds Eye View Camera system" our Desire Range are infinitely easier to drive, much safer to negotiate tight country roads or heavy city traffic and make parking in confined areas like caravan parks a breeze.

Various Revolution Motorhomes' in-house designed options include;

Automated – windows and blinds, skylight, elevating bed-head, underbed storage access, drop-down overhead cabinets, external slide-out storage bins, lowering rear bike rack, odourless self-cleaning toilet system (no dirty hoses), slide-out bench top extensions, electric swivel seats with height adjustment and travel mode.

Fancy a Star-gazing window above your bed with a switch-activated blind? Or an exterior ice-cooler compartment with bottle and glassware storage?

At Revolution Motorhomes, we are at the forefront of Motorhome design, both in functionality and living space.

Our Desire Series

Car Licence –

Luxe Range 20-22ft – slim-line motorhome with or without full-length slide-out. Includes our popular Luxe22 SL – built on the Mercedes MWB chassis, 2.2m wide on the road, with the generous slide-out giving you a 2.9m internal width of living space. Option for true off-grid living - 4x4 with 800w solar and 400amp Lithium batteries, generator, diesel heating and longer range fuel tank. This range has the option of a split air-conditioning unit to keep your motorhome under 2.9m in height.

Desire Range 22-25ft – with or without a full-length slide-out at 2.41metres (widest point), both with an internal height of 2.03metres (6'8").

Indulgence 23 – full length slide-out with optional 4 seat/4berth configuration.

Light Rigid Licence -

Desire 26SL, Indulgence Range 26-30ft, motorhomes with a 'toy-garage', 30ft Sanctuary motorhome with option of 2 lounges, and our 38ft Sanctuary with 2 bedrooms that have their own ensuites.

The Desire SL & Desire Indulgence Ranges' much stronger, longer and wider full length driver's side slide-out which includes our rear bathroom, transforms the interior living space to become an unparalleled 3.2m wide with standard features like the largest kitchens, genuine queen-sized beds, expansive full depth hanging wardrobes & storage space, and the largest rear bathroom on the market that features a large separate shower cubicle, market-leading storage plus full length mirrors. Our Desire SL & Indulgence Range truly stands out from the crowd in functionality and price.

The variety of sleeping arrangements include full size Twin singles, genuine Island double or Queen bed and in the Desire 26SL & Indulgence range the option of a genuine island king size bed. Our 30-38ft range has sliding doors to separate the living/entertaining area from the bedroom with cinema chairs, 4 seat/4berth, or 6 seat/6berth, 2 bedroom options.

We also offer a car licence 4 seat/4 berth option on a variety of motorhomes – Luxe 22SL, Desire 24SL and Indulgence

Our Indulgence and Sanctuary standard inclusions – 400ahm lithium, leather seating, Sat TV, TPMS, exterior bbq and Smart TV, RMH toilet system and automated windows, automated ext. storage bins and electric seat swivels.

For long-term living with the family or Carer's room, we also have two bedroom/two ensuite designs for the Iveco EuroCargo (Medium Rigid Licence)

We can design and custom-build you a motorhome with a rear garage for; motor bikes, 2-seat golf cart, karts and quad bikes – with or without a workshop, complete with automated platforms and ramps. Please email us at info@revolutionmotorhomes.com.au for more details.

If you take the time to compare our Luxury Desire Series to our competitors' similar sized motorhomes you quickly realise Revolution's designs, technology, structural strength, quality, luxury, vehicle safety and value for money are truly unrivalled.

To ensure Revolution exceeds even the most discerning customer's expectations, Revolution has optimised every part of our new ground-breaking Desire Series.

For example, other manufacturers graft a square box to the back of driver's cabin which dangerously leaves the awning protruding out past the side of the vehicle by approx. 120mm. The driver cannot see the awning in their mirrors. This leads to the awning commonly being damaged or completely smashed off the motorhome by being hit against corners of buildings, over hanging branches or when parking in streets where the gutters are lower than the roadway. Because our side walls are slightly tapered, our awnings do not protrude out past the side of the motorhome's body.

Revolution's slimmer slightly tapered body shape not only gives our motorhomes a much smoother more aerodynamic fully integrated appearance much easier to drive, by triangulating the body shape we significantly increase the strength and rigidity of the entire motorhome including our vitally important roll-over frame, with internal and external structural frames with full length covings that protect the edges and provides superior water-proofing.

We work closely with our clients to ensure their custom-built motorhome exceed their expectations. Luxe Range, Desire 22 and Desire 22 SL have a variety of floorplans (not shown) – please contact for more information.

Revolution's Desire and Indulgence Cab Chassis Series are available on the 8-speed VW Crafter, new Iveco Daily, Mercedes Benz Sprinter or Mercedes Sprinter 4 x4.

REVOLUTION Motorhomes MWB - Luxe 22-SL

While driving this amazingly compact motorhome is only 6.8m long, 2.2m wide & under 2.9m high, compared to a Sprinter LWB High Roof camper Van the Luxe is 10 cm shorter, 8 cm lower. The Luxe 22SL matches Mercedes MWB Cab Chassis perfectly, the shorter wheelbase has a tighter turning circle, is more manoeuvrable & by installing a 360 degree Bird's eye view camera system & RMD's revolutionary full length slideout we can provide customers with Genuine LUXURIOUS Motorhome with an amazingly spacious 2.9 m wide interior, more storage & load capacity, yet is smaller & easier to drive than a LWB Sprinter van.
